College internal exams cannot be held in the same rooms as external exams.

The recruitment of external invigilators is the responsibility of HR/Exams Assistant.

DBS fees for securing such clearance are paid by the College.

Invigilators are timetabled and briefed by the exams office.

Invigilators' rates of pay are set by the SMT.

### 8.2 Exam days

The Director of College Services will coordinate the booking of all exam rooms in liaison with the Premises Manager/Exams Assistant.

The Premises Department is responsible for the setting up of allocated rooms.

The lead invigilator will start all exams in accordance with JCQ guidelines in conjunction with the Examinations Manager.

Subject staff may be present at the start of the exam to assist with identification of candidates and to alleviate any anxieties and to offer encouragement.

Nominee(s) identified in advance of external exam series will be responsible for contacting candidates who are late for the start of their exams, to advise them of the latest time they may enter the exam room to take a paper (in accordance with JCQ guidelines).

In practical exams subject teachers/technicians may be on hand in case of any technical difficulties.

Exam papers must not be read by subject teachers or removed from the exam room until the Exams Manager/Assistant releases them in accordance with JCQ guidelines.

Candidates' personal belongings remain their own responsibility and the College accepts no liability for their loss or damage.

Disruptive candidates are dealt with in accordance with JCQ guidelines.

Candidates may leave the exam room for a genuine purpose requiring an immediate return to the exam room, in which case an invigilator/ member of staff must accompany them.

### **9.2 Clash candidates**

The supervision of escorts, identifying a secure venue and arranging overnight supervision is the responsibility of the Exams Manager.

### **9.3 Special consideration**

Should a candidate be too ill to sit an exam, suffer bereavement or other trauma or be taken ill during the exam itself, and then it is the candidate's responsibility to alert the centre, or the exam invigilator, to that effect.

The candidate must support any special consideration claim with appropriate evidence within five days of the exam, for example a letter from the candidate's GP and any NHS medical evidence.

The Exams Manager will then forward a completed special consideration form to the relevant awarding body within 10 days of the exam.

## 10. Coursework and appeals against internal assessments

The College has a separate policy on this subject.

### 10.1 Coursework

Candidates who have to prepare coursework should do so by the required date.

The Heads of Department will ensure all coursework is marked to meet the deadlines.

The Exams Office will ensure all coursework is dispatched at the correct time.

Keeping a record of what has been sent, when and to whom is the responsibility of the Exams Manager.

Marks for all internally assessed work are provided to the Exams Office by the Heads of Department.

#### 10.1a Generative Artificial Intelligence (GAI) and the Integrity of Qualifications

The College will follow the latest JCQ guidance with respect to best practice and GAI. Students will be aware of the importance of submitting their own independent work for assessment and potential malpractice:

- All work submitted for qualification assessments must be the students' own work.
- Students who are suspected to have misused GAI such that the work they submit for assessments is not their own will have committed malpractice, and in-line with existing policies and procedures, may incur severe sanctions.
- Students and staff must be aware of the risk of using GAI and the implications with respect to malpractice.
- Students must make sure that the work submitted for assessment is demonstrably their own. This could be, for example, by providing earlier drafts or other evidence of work supporting the authenticity of the submitted work, if suspected of plagiarism. If any sections of their work produced directly using GAI, they must be identified by the student (following JCQ guidance on acknowledging AI use) with the understanding that this means they have not independently met assessment criteria and will not be rewarded for this work.
- Teachers and other assessors must only accept work for assessment which they consider to be the students' own.

Where teacher have doubts about the authenticity of the student work submitted for assessment (including sections of work that have been generated using artificial intelligence without acknowledgement), they must investigate and follow existing procedures on suspected malpractice. The onus will be on the student to prove that the work submitted is their own, for example by providing drafts and/or other evidence of support, for example email conversations with teachers which prove the authenticity of the work.

## 10.2 Appeals against internal assessments

The main points are:

- Appeals will only be entertained if they apply to the process leading to an assessment.
- Candidates may appeal if they feel their coursework has been assessed unfairly, inconsistently or not in accordance with the specification for the qualification
- Appeals must be made in writing to the Exams Manager who will decide whether the process used conformed to the necessary requirements. Appeals must be made by May 31<sup>st</sup> in any given academic year.
- The Exams Manager's findings will be notified in writing, copied to the SMT and recorded for awarding body inspection.

## 11. Results and ATS/RoM's

### 11.1 Results

All individual candidate statements of results received will be distributed in College following publication of results.

All individual candidate statements of results will be presented in person at the centre **on production of a College Identity Card.**

### 11.2 ATS (access to scripts)

After the release of results of general qualifications, candidates may ask subject staff to request priority photocopies, with a view to requesting an RoM service. Candidates or College will pay such fees.

### 11.3 RoM (Reviews of Marking)

RoM for general qualifications may be requested by candidates or Heads of Departments if there are reasonable grounds for believing there has been an error in marking. Candidates or departments are to pay such fees, unless a cohort result is queried, when the Exams Manager, in conjunction with the Head of Department and SMT, will investigate the feasibility of asking for an RoM service, to be paid for by the College.

There is a separate College Procedure for 'Post Results Services'

Appeals are only based around the processes and not the actual marking.

Heads of Departments may also request scripts for investigation or for future leaning & teaching purposes.

## 12. Examination Security

12.1 The Examinations Manager will ensure the security of all examination papers, stationery and completed scripts in accordance with JCQ Regulations.

12.1 The Examinations Manager will ensure that there is an up to date contingency plan in place which follows JCQ guidelines. In the event of an incident the Examinations Manager will, in consultation with Senior Staff, implement the plan so as to mitigate any risks to the examinations process.

## 13. Certificates

Certificates will be available at the College's presentation evening, for those who cannot make it; procedures will be in place for collection in the form of a letter.

Certificates uncollected will be archived; any enquiries by former students for certificates will be directed to these and a signature & date will be required, which then will be put back in the students file as a record of collection.

From September 2018 it becomes the Student responsibility to apply for replacement certificates after 12 months of leaving.

Certificates may be collected on behalf of a candidate by a third party, provided they have been authorized to do so.

- ▶ human error
- ▶ unforeseen circumstances such as a fire or flood

If a data protection breach is identified, the following steps will be taken:

### 1. Containment and recovery

The Data Protection Officer will lead on investigating the breach.

It will be established:

- ▶ who needs to be made aware of the breach and inform them of what they are expected to do to assist in the containment exercise. This may include isolating or closing a compromised section of the network, finding a lost piece of equipment and/or changing the access codes
- ▶ whether there is anything that can be done to recover any losses and limit the damage the breach can cause. As well as the physical recovery of equipment, this could involve the use of back-up hardware to restore lost or damaged data or ensuring that staff recognise when someone tries to use stolen data to access accounts
- ▶ which authorities, if relevant, need to be informed

## **2. Assessment of ongoing risk**

The following points will be considered in assessing the ongoing risk of the data breach:

- ▶ what type of data is involved?
- ▶ how sensitive is it?
- ▶ if data has been lost or stolen, are there any protections in place such as encryption?
- ▶ what has happened to the data? If data has been stolen, it could be used for purposes which are harmful to the individuals to whom the data relates; if it has been damaged, this poses a different type and level of risk
- ▶ regardless of what has happened to the data, what could the data tell a third party about the individual?
- ▶ how many individuals' personal data are affected by the breach?
- ▶ who are the individuals whose data has been breached?
- ▶ what harm can come to those individuals?
- ▶ are there wider consequences to consider such as a loss of public confidence in an important service we provide?

## **3. Notification of breach**

Notification will take place to enable individuals who may have been affected to take steps to protect themselves or to allow the appropriate regulatory bodies to perform their functions, provide advice and deal with complaints.

## **4. Evaluation and response**

Once a data breach has been resolved, a full investigation of the incident will take place. This will include:

- ▶ reviewing what data is held and where and how it is stored
- ▶ identifying where risks and weak points in security measures lie (for example, use of portable storage devices or access to public networks)
- ▶ reviewing methods of data sharing and transmission
- ▶ increasing staff awareness of data security and filling gaps through training or tailored advice
- ▶ reviewing contingency plans

## **Section 5 – Candidate information, audit and protection measures**

For the purposes of this policy, all candidates' exams-related information – even that not considered personal or sensitive under GDPR – will be handled in line with GDPR guidelines.

Where the College shares data with a third party processor, the same data protection standards that Loreto College upholds are imposed on the processor.
